A Radical History of Britain: Visionaries, Rebels and ...

A Radical History of Britain: Visionaries, Rebels and Revolutionaries - the men and women who fought for our freedoms. From medieval Runnymede to twentieth-century Jarrow, from King Alfred to George Orwell by way of John Lilburne and Mary Wollstonecraft, a rich and colourful thread of radicalism runs through a thousand years of British history.

A Radical History of Britain: Visionaries, Rebels and ...

A Radical History of Britain details the ideas of Tom Paine and the Chartists, and explains the long fight for liberty and the vote. Vallance also charts the rise of the Labour Party and gives a good account of the suffragettes. He catalogues the fight against fascism and ends with praise for the Stop the War movement.

Background. The Radical movement arose in the late 18th century to support parliamentary reform, with additional aims including lower taxes and the abolition of sinecures. John Wilkes 's reformist efforts in the 1760s as editor of The North Briton and MP were seen as radical at the time, but support dropped away after the Massacre of St George's Fields in 1768.

The first instalment of Steve McQueen's Small Axe shows the brutality faced by black community and how they organised a radical campaign for justice. Mangrove can be watched on BBC iPlayer here. Critics have rightly lavished praise on Mangrove – the first film in Steve McQueen's five part series Small Axe. The film gives a searing and cinematographically stunning account of the landmark ...

From medieval Runnymede to twentieth-century Jarrow, from King Alfred to George Orwell by way of John Lilburne and Mary Wollstonecraft, a rich and colourful thread of radicalism runs through a thousand years of British history. In this fascinating study, Edward Vallance traces a national tendency towards revolution, irreverence and reform wherever it surfaces and in all its variety. He unveils the British people who fought and died for religious freedom, universal suffrage, justice and liberty - and shows why, now more than ever, their heroic achievements must be celebrated. Beginning with Magna Carta, Vallance subjects the touchstones of British radicalism to rigorous scrutiny. He evokes the figureheads of radical action, real and mythic - Robin Hood and Captain Swing, Wat Tyler, Ned Ludd, Thomas Paine and Emmeline Pankhurst - and the popular movements that bore them. Lollards and Levellers, Diggers, Ranters and Chartists, each has its membership, principles and objectives revealed.

Focusing on the key period between the late 18th century and 1914, this book provides the first comprehensive narrative account of radical and socialist texts and organised movements for reform to land planning and housing policies in Britain. Beginning with the early colonial settlements in the puritan and enlightenment eras, it also covers Benthamite utilitarian planning, Owenite and utopian communitarianism, the Chartists, late Chartists and the First International, Christian socialists and positivists, working class and radical land reform campaigns in the late 19th century, Garden City pioneers and the institutionalisation of the planning profession. The book, in effect, presents a prehistory of land, planning and housing reform in the UK in contrast with most historiography which focuses on the immediate pre-World War I period. Providing an analysis of different intellectual traditions and contrasting middle class-led reform initiatives with those based on working class organisations, the book seeks to relate historical debates to contemporary themes, including utopianism and pragmatism, the role of the state, the balance between local initiatives and centrally driven reforms and the interdependence of land, housing and planning.

This is a short history of the political life of this island over a very long period, showing how history can speak clearly to current political debates.

File Type PDF A Radical History Of Britain Visionaries Rebels And Revolutionaries The Men And Women Who Fought For Our Freedom Paperback

This collection of essays studies the expression and diffusion of radical ideas in Britain from the period of the English Revolution in the mid-seventeenth century to the Romantic Revolution in the early nineteenth century. The essays included in the volume explore the modes of articulation and dissemination of radical ideas in the period by focusing on actors ('radical voices') and a variety of written texts and cultural practices ('radical ways'), ranging from fiction, correspondence, pamphlets and newspapers to petitions presented to Parliament and toasts raised in public. They analyse the way these media interacted with their political, religious, social and literary context. This volume provides an interdisciplinary outlook on the study of early modern radicalism, with contributions from literary scholars and historians, and uses case studies as insights into the global picture of radical ideas. It will be of interest to students of seventeenth- and eighteenth-century literature and history.

In many and varied forms, the Radical Right has been a hyper-nationalist thorn in the side of Britain's liberal political system for over 100 years. This survey examines its troublesome history, and its critique of British society, from its origins in Edwardian fears of imperial disintegration and racial decay to the current resurgence of the newly modernized British National Party.

This updated edition of *Secret Affairs* covers the momentous events of the past year in the Middle East and at home in the UK. It reveals the unreported attempts by Britain to cultivate relations with the Muslim Brotherhood in Egypt after the fall of Mubarak, the military intervention on the side of Libyan rebel forces which include pro-al-Qaeda elements, and the ongoing reliance on the region's ultimate fundamentalist state, Saudi Arabia, to safeguard its interest in the Middle East. It illuminates path of Salman Abedi, the bomber who attacked Manchester in May 2017, and his terror network: how he fought in Libya in 2011 as part of a group of fighters which the UK allowed to leave the country to go and battle against Gaddafi to topple him. In this ground-breaking book, Mark Curtis reveals the covert history of British collusion with radical Islamic and terrorist groups. *Secret Affairs* shows how governments since the 1940s have connived with militant forces to control oil resources and overthrow governments. The story of how Britain has helped nurture the rise of global terrorism has never been told.

Covering the period from the interwar years through the arrival of the steamship SS *Empire Windrush* from Jamaica in 1948 and culminating in the period of decolonization in the British Caribbean by the early 1970s, this project situates the development of networks of communication, categories of identification, and Caribbean radical politics both in the metropole and abroad. *Blackening Britain* explores how articulations of Caribbean identity formation corresponded to the following themes: organic collective action, political mobilization, cultural expressions of shared consciousness, and novel patterns of communication. *Blackening Britain* shows how colonial migrants developed tools of resistance in the imperial center predicated on their racialized consciousness that emerged from their experiences of alienation and discrimination in Britain. This book also interrogates the ways in which prominent West Indian activists, intellectuals, political actors, and artists conceived of their relationship to Britain. Ultimately, this work shows a move away from British identity and a radical, revolutionary consciousness rooted in the West Indian background and forged in the contentious space of metropolitan Britain.

The Leveller movement of the 1640s campaigned for religious toleration and a radical remaking of politics in post-civil war England. This book, the first full-length study of the Levellers for fifty years, offers a fresh analysis of the originality and character of Leveller thought. Challenging received ideas about the Levellers as social contract theorists and Leveller thought as a mere radicalisation of parliamentarian thought, Foxley shows that the Levellers'

File Type PDF A Radical History Of Britain Visionaries Rebels And Revolutionaries The Men And Women Who Fought For Our Freedom Paperback

originality lay in their subtle and unexpected combination of different strands within parliamentarianism. The book takes full account of recent scholarship, and contributes to historical debates on the development of radical and republican politics in the civil war period, the nature of tolerationist thought, the significance of the Leveller movement and the extent of the Levellers' influence in the ranks of the New Model Army.

Covering over 2,000 years in under 200 pages, Jeremy Black takes the reader on a breathless tour of British history, providing invaluable context for students of any period. A truly British overview, this book covers all four constituent parts of the UK, as well as migration to and from Britain, and introduces questions of national identity and collective memory. The author begins by considering how the geography of Britain has influenced its development and goes on to examine the formation of its society and political culture. Resisting the Whiggish tradition of triumphalist national histories, Jeremy Black provides a balanced and sensitive account in his trademark pithy style. This new edition has been considerably revised and expanded, bringing the coverage right up to the present day, including what the Scottish referendum on independence says about the nature of modern 'Britishness'.
