A beautifully illustrated collection of Gloria Steinem's most inspirational and outrageous quotes, with an introduction and essays by the feminist activist herself "A fearless book full of passion, resolute perspective, and unbiased hope for the future. "—Janelle Monáe For decades—and especially now, in these times of crisis—people around the world have found guidance, humor, and unity in Gloria Steinem's gift for creating quotes that offer hope and inspire action. From her early days as a journalist and feminist activist, Steinem's words have helped generations to empower themselves and work together. Covering topics from relationships ("Many are looking for the right person. Too few are trying to be the right person.") to the patriarchy ("Men are liked better when they win. Women are liked better when they lose. This is how the patriarchy is enforced every day.") and activism ("Revolutions, like trees, grow from the bottom up."), this is the definitive collection of Steinem's words on what matters most. Steinem sees quotes as "the poetry of everyday life," so she also has included a few favorites from friends, including bell hooks, Flo Kennedy, and Michelle Obama, in this book that will make you want to laugh, march, and create some quotes of your own. In fact, at the end of the book, there's a special space for readers to add their own quotes and others they've found inspiring. The Truth Will Set You Free, But First It Will Piss You Off! is both timeless and timely. It is a gift of hope from Steinem to readers, and a book to share with friends.

The feminist icon and New York Times–bestselling author offers an intimate appraisal of the ultimate sex symbol—and the real woman behind the images. Few books have altered the perception of a celebrity as much as Marilyn. Gloria Steinem, the renowned feminist who inspired the film *The Glorias*, reveals that behind the familiar sex symbol lay a tortured spirit with powerful charisma, intelligence, and complexity. This national bestseller delves into a topic many other writers have ignored—that of Norma Jeane, the young girl who grew up with an unstable mother, constant shuffling between foster homes, and abuse. Steinem evocatively recreates that world, connecting it to the fragile adult persona of Marilyn Monroe. Her compelling text draws on a long, private interview Monroe gave to photographer George Barris, part of an intended joint project begun during Monroe's last summer. Steinem's Marilyn also includes Barris's extraordinary portraits of Monroe, taken just weeks before the star's death. "An even-handed introduction to the Monroe phenomenon." —Library Journal

Essays from the New York Times–bestselling author who inspired the film *The Glorias*, a "woman who has told the truth about her life and ours" (Los Angeles Times). With cool humor and rich intellect, Gloria Steinem strips bare our social constructions of gender and race, explaining just how limiting these invented cultural identities can be. In the first of six sections, Steinem imagines how our understanding of human psychology would be different in a witty reversal. What if Freud had been a woman who inflicted biological inferiority on men (think "womb envy")? In other essays, she presents positive examples of people who turn gendered stereotypes on their heads, from a female bodybuilder to Mahatma Gandhi, whose followers absorbed his wisdom that change starts at the bottom. And in some of the most moving pieces, Steinem reveals some of her own complicated history as a writer, woman, and citizen of the world. This ebook features an illustrated biography of Gloria Steinem including rare images from the author's personal collection.

Part memoir, part guidebook, and part social history, *For Small Creatures Such as We* is the first book from the daughter of Carl Sagan and Ann Druyan—a luminous exploration of Earth's marvels that require no faith in order to be believed. "What is the meaning of life? Sagan finds its meaning everywhere—with her family, around the world, and especially among the stars of the cosmos. Read her work: you'll have a deeper appreciation for your every step, every bite, and every breath." —Bill Nye Sasha Sagan was raised by secular parents, the astronomer Carl Sagan and the writer and producer Ann Druyan. They taught her that the natural world and vast cosmos are full of profound beauty, that science reveals truths more wondrous than any myth or fable. When Sagan herself became a mother, she began her own hunt for the natural phenomena behind our most treasured occasions—from births to deaths, holidays to weddings, anniversaries, and more—growing these roots into a new set of rituals for her young daughter that honor the joy and significance of each experience without relying on religious framework. As Sagan shares these rituals, *For Small Creatures Such as We* becomes a moving tribute to a father, a newborn daughter, a marriage, and the natural world—a celebration of life itself, and the power of our families and beliefs to bring us together.

Howard Hodgkin's prints represent a parallel and very different achievement from his paintings. They have been internationally celebrated and passionately collected, but never brought together, until now. As a painter, Hodgkin has mostly preferred to create small works using oils and working on wood. As a printmaker, he has challenged the format, techniques and expressive potential of the medium, and has now made over 140 works on paper. Far from seeing them as poor relations to his paintings, he has consistently explored the print medium for its own sake, making astonishingly varied, emotive and persuasive works that are paradoxically unique as well as multiples.
