# Get Free Irrigation In Ethiopia A Reservoirs / Lakes / River basins / Water potential / Water resources

Irrigation development has been identified as a means to stimulate economic growth and rural development in Ethiopia. However, little attempt has been made to quantify the

# Get Free Irrigation In

contribution of  
irrigation to national  
income. Using data  
from selected  
irrigation schemes,  
representing small,  
medium and large-  
scale schemes of  
modern or traditional  
typologies; the  
present coverage and  
planned growth of  
irrigation, actual and  
expected

# Get Free Irrigation In

contributions of irrigation to the national economy were quantified following the approach of adjusted gross margin analysis. Our results show that irrigation yields 219.7% higher income compared to the rainfed system while its current and future contribution to

# Get Free Irrigation In

agricultural GDP is estimated to be about 5.7 and 12% although irrigation covers about 5 and 9% of the total cultivated land area, respectively.

Small-scale irrigation is expanding rapidly in parts of the world, especially sub-Saharan Africa, offering smallholder

Reviewiste  
farmers an  
opportunity to improve  
their livelihoods, diets,  
and resilience to  
climate change  
among other benefits.  
Growing research  
focuses on the  
potential for small-  
scale irrigation to offer  
a pathway for  
women's  
empowerment, yet the  
factors conditioning

# Get Free Irrigation In

the relationship  
between small-scale  
irrigation and  
women's  
empowerment are not  
well understood. The  
evidence tends to be  
scattered across  
context-specific case  
studies that focus on  
targeted outcomes,  
without distinguishing  
between technology  
types, scales, or

Get Free  
Irrigation In  
Ethiopia: A  
Review of  
approaches to  
irrigation systems or  
technologies. This  
paper synthesizes the  
issues related to  
gender and small-  
scale irrigation using  
a conceptual  
framework that  
highlights the linkages  
between elements of  
women's  
empowerment and  
small-scale irrigation.

# Get Free Irrigation In

Because gendered dynamics with small-scale irrigation play out differently depending on the scale of irrigation and the technologies used, this paper applies the framework to examine case studies across a typology of small-scale irrigation systems. The case

# Get Free Irrigation In

studies cover a range of farming and livelihood systems in which women's roles and gender relations vary, highlighting the importance of the opportunity structure or context in which irrigation takes place. This paper then draws lessons on the various ways in which small-scale irrigation,

# Get Free Irrigation In

gender relations, and  
women's  
empowerment interact  
and highlights areas  
where research gaps  
remain.

Sugarcane / Dams /

Irrigation

# Get Free Irrigation In Ethiopia / Irrigation programs / Irrigation practices

Agriculture in Africa south of the Sahara (SSA) is still largely rainfed. SSA also exhibits the lowest crop yields for major staples in the world, largely due to low use of irrigation and fertilizer. Rainfed

# Get Free Irrigation In

Agriculture poses growing production risks with increased climate variability and change. At the same time, smallholder irrigation in the region developed rapidly over the past decade, albeit starting from very low levels. In addition to largely demand-driven irrigation development

# Get Free Irrigation In

by smallholders, there is a significant push by donors for large-scale irrigation development, as well as some push for smallholder irrigation. There has also been a long-standing debate about whether irrigation in SSA should be large scale or small scale to achieve its potential.

# Get Free Irrigation In

However, given the potentially high rewards, but also high possibility of failure, the assessment of irrigation potential must go beyond large scale versus small scale to integrate concerns regarding environmental sustainability, resource use efficiency, nutrition

# Get Free Irrigation In

and health impacts, and women's empowerment. The hypothesis underlying this review paper is that how irrigation gets deployed in SSA will be decisive not only for environmental sustainability (such as deciding remaining forest cover in the region) and poverty reduction, but also for

# Get Free Irrigation In

health, nutrition, and gender outcomes in the region. The focus of this paper is on the health, nutrition, and gender linkage. We find that to date, few studies have analyzed the impact of irrigation interventions on nutrition, health, and women's empowerment, despite the large

# Get Free Irrigation In

potential of irrigation  
to affect these  
important variables.

Irrigation interventions  
may have differential  
effects on different  
members in the  
household and in the  
community, such as  
irrigators, non-  
irrigators, children,  
and women.

Measuring and  
understanding such

# Get Free Irrigation In

differences, followed by improving design and implementation to maximize gender, health, and nutrition outcomes, could transform irrigation programs from focusing solely on increased food production toward becoming an integral component of poverty-reduction strategies.

# Get Free Irrigation In Ethiopia A Review liste

This is a single-volume guide to all the main analytical frameworks for gender-sensitive research and planning. It draws on

# Get Free Irrigation In

the experience of  
trainers and  
practitioners, and  
includes step-by-step  
instructions for using  
the frameworks.
