“Kangaroo Mother Care” on the other hand is defined by the World Health Organisation, and means skin to skin contact starting early , PLUS breastfeeding and support for parents, PLUS early discharge. So this is much broader, but many people still believe that the baby must be “stable” before KMC can start.

*Kangaroo Mother Care - What is KMC?*

KMC, or Kangaroo Mother Care, is a method of caring for an infant where the mother nurses her infant against her bare breasts. The infant, who usually only wears a woollen cap and a nappy, is kept upright, often with a towel, piece of cloth or binder. The mother wears a dress or shirt over the infant. This is known as the KMC position. 2.

*3. Principles of Kangaroo Mother Care*

Kangaroo Mother Care is a broader package of care defined by the World Health Organization. Kangaroo Mother Care originally referred only to care of low birth weight and preterm infants, and is defined as a care strategy including three main components: kangaroo position, kangaroo nutrition and kangaroo discharge.

*Kangaroo care - Wikipedia*

Kangaroo Mother Care or KMC is a straightforward and easy practice to care for newborn babies, especially for preterm infants. The method involves skin-to-skin contact with the mother, father, or a caregiver. It is a potent technique to promote the health and general wellbeing of preterm as well as full-term infants.
