A Möbius strip made with an odd number of half twists and the boundary circle of that Möbius strip is a knot. A knot in topology is a circle inside three-dimensional space. These have

Knots, Braids, and Möbius strips

As we shall see throughout this chapter, braids are closely related to knots and we need to look at knots to appreciate braids fully. Knot theory was started in the 1860's by Peter Guthrie Tait, a Scottish mathematician, who endeavored to make a list of topologically distinct knots in response to a request by William Thompson (later Lord Kelvin)

Frizz. We know.

The Complete Guide to Knotless Braids

The Berkley Braid Knot . Fold over the end of the line so you have 5-6 inches of doubled line, making a loop. Thread the end of the doubled line loop through the eye. Squeeze the end of the loop to form a point, this'll make this step much easier; Wrap the loop around the tag-end and the mainline 8 times. Start from the top and wrap towards the eye.

The Best Braided Line Knots For Fishing (Step-By-Step Guide)

Knotless braids have been around since the early 2000's but after years of being on the fringe of hair braiding they've taken over.
