Latin America and the Caribbean At-A-Glance. Social turmoil affected growth in parts of the region in 2019. This year, the entire region is suffering from low oil prices and the impact of the deadly novel coronavirus. Most countries in the region have enforced social isolation and restricted people's movement to avoid contagion, slashing economic productivity and raising uncertainty as to how it will affect economic growth in the coming months.

Latin America is a group of countries and dependencies in the Western Hemisphere where Romance languages such as Spanish, French or Portuguese are predominantly spoken. Some territories such as Quebec, where French is spoken, or areas of the United States where Spanish is predominantly spoken are not included due to the nation being a part of Anglo America.

Latin America has emerged as a key growth market for the tower industry with the establishment of the U.S. tower model. The Mexican market is rife with change and new opportunities. But Latin America comprises so many different markets, each with its own prospects and complexity. The risk is higher south of the border but so is the reward.
