Transaction (SET) is a communications protocol standard for securing credit card transactions over networks, specifically, the Internet. SET was not itself a payment system, but rather a set of security protocols and formats that enabled users to employ the existing credit card payment infrastructure on an open network in a secure fashion.

The Bourse de commerce (Commodities Exchange) is a building in Paris, France, originally used as a place to negotiate the trade of grain and other commodities, now used to provide services to businesses by the Paris Chamber of Commerce. It has its origins in a circular corn exchange built in 1763-67, with an open-air interior court that was

File Type PDF Secure Electronic Commerce Building The Infrastructure For Digital Signatures And Encryption

capped by an iron dome in
1811.

~~Bourse de commerce (Paris)~~
